AINAK is registered as a non-profit
under section 501 C3 of the
Internal Revenue Code.

The Need

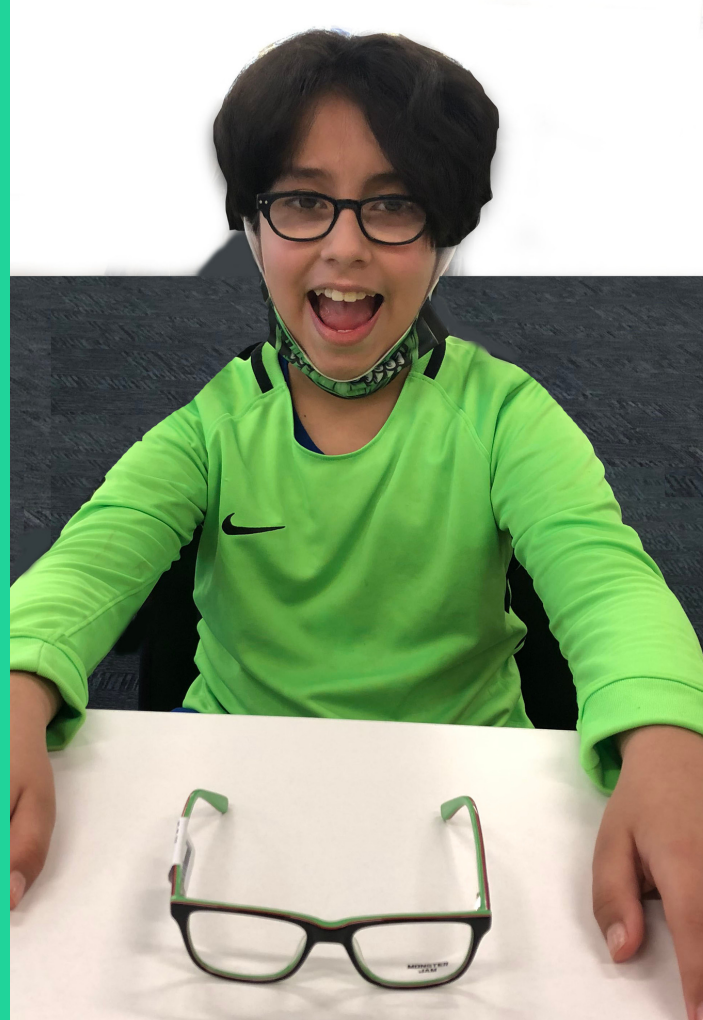

The CDC reports that 62 million people in America lack vision insurance or access to eye care and eyeglasses. AINAK's mission is to fill this gap and provide free eye exams and prescription eyeglasses.

In the US, about 1 in 4 preschool-aged children have an undiagnosed or untreated vision problem, highlighting the importance of starting regular eye exams for young children. Good vision is important for a child's overall development and learning ability.

Our Mission

No child should be left behind in the classroom due to an inability to afford proper eye-care. A 20/20 vision can help a child succeed in school and gain the confidence to thrive in life.

Empowering the underprivileged to achieve 20/20 vision free of cost

About Us

AINAK was launched in 2020 as a Bay Area-based nonprofit organization focused on helping under-resourced and underprivileged individuals of all ages receive free-of-cost vision care and thereby have an improved quality of life.

Why did we start AINAK?

Poonam Goyal was inspired to create AINAK during her time volunteering at a school in an underserved community. She noticed a few disengaged children at the back of the classroom. When asked why they were not participating, they said it was because they could not see what was being taught. When these students were moved to the front, their involvement improved.

Poonam saw the problem and took action by creating AINAK to provide access to and free eye care for these communities.

Want to help?

Connect us with schools, individuals, or communities in need of our services.

We also are looking to partner with local nonprofits to provide eye care to their patrons.
