Sharp Vision**

## About Us

AINAK is a US based nonprofit organization focused on helping underprivileged individuals get eyecare services such as vision tests and prescription glasses.

Eyecare is an important part of life. However, almost 1.3 billion people around the world do not have the means to pay for eyecare services or to purchase the glasses they need.

Lack of eyecare can keep a child from performing well in school, or an employee from giving their 100%. For some, it can be a choice between buying food or purchasing glasses.

We connect individuals with Opticians or Optometrists to receive free eye exam and prescription glasses.

# Empowering the underprivileged to achieve 20/20 vision free of cost

## About the Founder

AINAK was founded by Poonam Goyal in 2018. Poonam worked for the Banking Industry for over 30 years . She also served on the Board of the South Asian Real Estate Association. She has a graduate degree in Life Sciences from the University of Rajasthan, Jaipur, India. She was inspired to create AINAK when she realized how often old pairs of frames are discarded. Therefore, she decided to establish a foundation to give old frames a new lease on life

## Our Mission

AINAK's mission is to provide free eye-care services for underprivileged individuals with poor vision by providing corrective glasses in cooperation with the local optometrists and ophthalmologists. Our future goal is to establish vision clinics in underdeveloped countries worldwide

## Want to help?

If you have an old pair of glasses you don't use anymore, please consider donating them to AINAK! We will use the frames and replace the lenses to give them a second life for someone in need. Visit our website to learn about volunteer and donation opportunities!.
